

Danielle Philipps, BS, RT(R)

**Healthcare Operations & Transformation Leader | Operational Excellence |
Clinical Workforce Strategy & AI-Enabled Process Improvement**

Shohola, PA 18458 | Danielle.Philipps.Careers@outlook.com | [linkedin.com/in/danielle-philipps](https://www.linkedin.com/in/danielle-philipps)

Healthcare operations leader specializing in operating-model transformation, clinical workforce strategy, and scalable service delivery across high-volume imaging and teleradiology environments. Proven record of reducing third-party dependence and cost while expanding volume, building multi-state physician operations, standardizing SOPs, and creating performance infrastructure. Combines clinical expertise with analytics, AI-enabled process design, and cross-functional execution.

Experience

HEAD OF TELE-RADIOLOGY OPERATIONS

XPDITE TELERADIOLOGY | REMOTE | MARCH 2024 - PRESENT

Corporate Title: Director of Operations

- Led the shift from outsourced to internally supported teleradiology capacity, reducing external read dependence from 66% to 31% while supporting volume growth and lowering normalized cost per report by 11%
- Built physician operations for a 17-physician network, personally recruiting 11 current physicians and owning rate discussions, onboarding, 13-state licensure/renewals, facility approvals, platform setup, performance, retention, and escalations
- Built operational analytics infrastructure from scratch, replacing manual tracking with dashboards for volume, TAT, physician performance, platform utilization, cost, coverage, and workforce planning
- Architected an AI-enabled critical-results and QC workflow, defining escalation logic and partnering on API automation to reduce manual review staffing from 2-3 employees per shift to one
- Built and standardized the SOP framework across PACS support, physician operations, critical results, QC, onboarding, and escalations; provide functional leadership for a ~20-person PACS support organization through an onshore manager
- Designed the 24/7 support coverage model and oversee physician capacity planning across an on-demand reading workforce, using state, modality, time-of-day, volume, and licensing data to target recruitment
- Led operational stabilization and infrastructure development across 1,100+ care sites, partnering with radiologists, CTO, development, and IT teams to improve workflows and support scalable service delivery

DIRECTOR OF OPERATIONS

LIBERTY PORTABLE X-RAY | MAY 2019 - APRIL 2024

Progression: Operations Manager (May 2019 - October 2019)

- Built the operating infrastructure for a startup mobile imaging provider, scaling from one technologist to a team of 30+ across multiple service regions
- Led full-cycle recruitment, hiring, onboarding, and workforce deployment, establishing a scalable staffing model to support rapid growth
- Designed scheduling, dispatch, and field-coverage processes to support high-volume mobile imaging across skilled nursing and outpatient settings
- Developed and implemented SOPs and quality-assurance protocols to improve consistency, image quality, and service delivery across client sites
- Standardized workflows and operating processes to reduce variability and support reliable execution across distributed teams

- Managed equipment deployment, supply chain logistics, and field readiness to maintain uninterrupted clinical operations across multiple regions

LEAD TECHNOLOGIST | NORTHEASTERN REHABILITATION ASSOCIATES | NOVEMBER 2016 – MAY 2019

- Supported fluoroscopy-guided pain management procedures in collaboration with physiatrists, ensuring procedural accuracy and adherence to sterile technique
- Performed dual roles as radiologic technologist and medical assistant within a high-volume interventional outpatient setting
- Managed inventory and supply processes to maintain procedural readiness across multiple treatment locations
- Assisted in coordinating workflow and clinical support activities to ensure efficient patient throughput and provider support

TECHNOLOGIST | REGIONAL HOSPITAL OF SCRANTON | JULY 2016 – NOVEMBER 2016

TECHNOLOGIST | HANOVER HOSPITAL | JULY 2015 – JULY 2016

TECHNOLOGIST | PREMIER URGENT CARE | APRIL 2015 – JULY 2015

Education

BACHELOR OF SCIENCE IN MEDICAL IMAGING | BLOOMSBURG UNIVERSITY | JUNE 2015

CERTIFICATE IN MEDICAL IMAGING | READING HOSPITAL SCHOOL OF HEALTH SCIENCES, PA | JUNE 2015

Skills & Expertise

Executive Operations & Transformation: Operating Model Transformation, Operational Strategy, Cross-Functional Leadership, Organizational Scaling, Change Management, Program Leadership, Executive Stakeholder Management

Clinical & Workforce Operations: Physician Operations, Multi-State Licensure, Workforce Planning, Capacity Planning, Remote Team Leadership, 24/7 Coverage Design, Performance Management

Operational Excellence: SOP Development, Process Redesign, Continuous Improvement, Quality Improvement, Escalation Management, KPI/OKR Development, Root-Cause Analysis

Analytics & Technology Enablement: Performance Dashboards, Cost-per-Report Analysis, Healthcare Analytics, AI-Assisted Workflow Design, Automation, Product & Engineering Collaboration, System Integrations

Core Technologies: ClickUp, PACS, RIS, EMR/EHR, Microsoft Excel, Microsoft 365, AI-Assisted Workflow Automation

Professional Licenses

- American Registry of Radiologic Technologists (ARRT), Registered Technologist in Radiography, R.T.(R)
